## **Findings**

1. This dispute relates to services with reimbursement subject to the provisions of Texas Administrative Code §134.1, effective May 2, 2006, 31 *Texas Register* 3561, which requires that, in the absence of an applicable fee guideline, reimbursement for health care not provided through a workers' compensation health care network shall be made in accordance with subsection §134.1(d) which states that "Fair and reasonable reimbursement: (1) is consistent with the criteria of Labor Code §413.011; (2) ensures that similar procedures provided in similar circumstances receive similar reimbursement; and (3) is based on nationally recognized published studies, published Division medical dispute decisions, and values assigned for services involving similar work and resource commitments, if available."
2. Texas Labor Code §413.011(d) requires that fee guidelines must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. It further requires that the Division consider the increased security of payment afforded by the Act in establishing the fee guidelines.
3. 28 Texas Administrative Code §133.307(c)(2)(E), effective May 25, 2008, 33 *Texas Register* 3954, applicable to requests filed on or after May 25, 2008, requires that the request shall include "a copy of all applicable medical records specific to the dates of service in dispute." Review of the submitted documentation finds that the requestor has not provided copies of all medical records pertinent to the services in dispute. Although the requestor did submit a copy of the operative report, the requestor did not submit a copy of the anesthesia record, post-operative care record, or other pertinent medical records sufficient to support the services in dispute. The Division concludes that the requestor has not met the requirements of §133.307(c)(2)(E).
4. 28 Texas Administrative Code §133.307(c)(2)(G), effective May 25, 2008, 33 *Texas Register* 3954, applicable to requests filed on or after May 25, 2008, requires the requestor to provide "documentation that discusses, demonstrates, and justifies that the amount being sought is a fair and reasonable rate of reimbursement in accordance with §134.1 of this title (relating to Medical Reimbursement) when the dispute involves health care for which the Division has not established a maximum allowable reimbursement (MAR), as applicable." Review of the submitted documentation finds that:
  - The requestor's rationale for increased reimbursement from the *Table of Disputed Services* asserts that "Charges were not reimbursed reasonable and customary nor substantiated as such...Documentation attached shows 42% to 75% reimbursement on these services by other carriers."
  - The Division has previously found that "hospital charges are not a valid indicator of a hospital's costs of providing services nor of what is being paid by other payors," as stated in the adoption preamble to the Division's former *Acute Care Inpatient Hospital Fee Guideline*, 22 *Texas Register* 6276. It further states that "Alternative methods of reimbursement were considered... and rejected because they use hospital charges as their basis and allow the hospitals to affect their reimbursement by inflating their charges..." 22 *Texas Register* 6268-6269. Therefore, the use of a hospital's "usual and customary" charges cannot be favorably considered when no other data or documentation was submitted to support that the payment amount being sought is a fair and reasonable reimbursement for the services in dispute.
  - In support of the requested reimbursement, the requestor submitted redacted explanations of benefits, and selected portions of EOBs, from various sample insurance carriers. However, the requestor did not discuss or explain how the sample EOBs support the requestor's position that additional payment is due. Review of the submitted documentation finds that the requestor did not establish that the sample EOBs are for services that are substantially similar to the services in dispute. The carriers' reimbursement methodologies are not described on the EOBs. Nor did the requestor explain or discuss the sample carriers' methodologies or how the payment amount was determined for each sample EOB. The requestor did not discuss whether such payment was typical for such services or for the services in dispute.
  - The requestor did not submit documentation to support that payment of the amount sought is a fair and

reasonable rate of reimbursement for the services in this dispute.

- The requestor did not submit nationally recognized published studies or documentation of values assigned for services involving similar work and resource commitments to support the requested reimbursement.
- The requestor did not support that payment of the requested amount would satisfy the requirements of 28 Texas Administrative Code §134.1.

The request for additional reimbursement is not supported. Thorough review of the documentation submitted by the requestor finds that the requestor has not demonstrated or justified that payment of the amount sought would be a fair and reasonable rate of reimbursement for the services in dispute. Additional payment cannot be recommended.

### **Conclusion**

The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution, and the thorough review and consideration of that evidence. After thorough review and consideration of all the evidence presented by the parties to this dispute, it is determined that the submitted documentation does not support the reimbursement amount sought by the requestor. The Division concludes that this dispute was not filed in the form and manner prescribed under Division rules at 28 Texas Administrative Code §133.307. The Division further concludes that the requestor failed to support its position that additional reimbursement is due. As a result, the amount ordered is \$0.00.

### ***ORDER***

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the services in dispute.
